Battery system	**Smart lithium battery**
Remote	**6-inch HD**

Manufacturer specifications. Figures are approximate and vary with configuration.

CAA.

Max take-off weight 99 kg. Flown under CAA Part 102, under an unmanned aircraft operator certificate held by the operator, not by DCI Drones NZ.

Airworthiness-inspected before handover. That inspection is not an operator certificate.

General information, not legal advice. Check current CAA rules for each job.

OPERATOR SUPPORT PACKAGE.

Every aircraft is commissioned, comes with hands-on flight training and includes the Operator Support Package as standard:

- Drone Group SOP library: façade washing, roof treatment / biocide, solar cleaning
- Chemical guidance: products, rates and application protocols
- 90 days of remote support (phone and email), ending in a joint review call

SOPs licensed under package terms. Training is training, not a CAA certification.
